Mindray Medical Korea LTD

Product Highlights

CAL 8000

Smarter workstation, simpler workflow

CAL 8000 New Generation Cellular Analysis Line marks a higher level of Mindray's expertise and innovative power in the high-end hematological area. Its more compact size, upgraded labXpert data analysis software, flexible layout design options, one-stop CBC+HAb1c test plus automated blood smear functionality, and other advanced features, make it a desirable cellular analysis solution for high-volume modern laboratories.

SAL 8000

Modular System

SAL 8000 Serum Automation Line is a high-functioning integrated system connecting seamlessly the chemistry analyzer BS-2000M with the chemiluminescence immunology analyzer CL-2000i. By delivering fast, reliable results of both clinical chemistry and immunology tests on one platform, the system is designed to optimize your laboratory workflow and achieve maximum efficiency.
