### Product Highlights

#### ACL TOP 50 Series (Display)

Minimize errors and enhance quality. The new ACL TOP Family 50 Series\* offers the most advanced automation and quality management for routine-to-specialty Hemostasis testing. Engineered to minimize errors and enhance quality, all models are standardized and offer automated pre-analytical sample integrity checks. Plus, all ACL TOP 50 Series systems are optimized for a comprehensive panel of HemosIL assays to offer a complete disease-state management solution.

#### GEM Premier™ 5000 (Display)

The Intelligent Analyzer Assuring quality before, during and after sample analysis for improved patient care. GEM Premier 5000\* Critical Care whole-blood testing system provides automated quality assurance with every sample. Now with next-generation Intelligent Quality Management (iQM2), featuring IntraSpect™ technology, potential errors are detected not only before and after, but also during sample analysis, along with real-time correction and documentation. Plus, it's simple—just change the all-in-one GEM PAK once a month. So regardless of testing location or point-of-care operator, quality results and compliance are assured with every sample.
