### Product Highlights

#### i-Smart 300 (Display)

i-Smart 300 System delivers gas in Blood(pCO<sub>2</sub>, pO<sub>2</sub>), pH, electrolyte(Na<sup>+</sup>, K<sup>+</sup>, Ca<sup>2+</sup>, Cl<sup>-</sup>) and Hematocrit through a small blood sample quickly and simply. Using the all-in-one cartridge, convenient and accurate blood gas analysis can be conducted. The analyzer is small so it can be installed anywhere for testing and end-users can easily use/operate through friendly GUI

- Reliable and Easy to Use
- Fast and Flexible
- Maintenance free

#### A1Care (Display)

A1Care measures accurate and precise HbA<sub>1c</sub> concentration using enzyme reaction mechanism which is homogeneous reaction. It takes only 4 minutes 20 seconds to get HbA<sub>1c</sub> test results and requires small(2.5  $\mu$ l) blood sample. All-in-one cartridge also facilitates simple preparation.

- Simple & Easy Preparation
- Fast & Reliable Result
- High Usability
