

Laboratory Medicine in the Era of Disruptive Technology

## LMCE 2017 & KSLM 58<sup>th</sup> Annual Meeting

October 18-20, 2017  
Grand Walkerhill Seoul, Korea  
[www.lmce-kslm.org](http://www.lmce-kslm.org)

## Thermo Fisher Scientific

### Product Highlights

### Ion Torrent Ion S5 Systems (Display)

Ion S5 Sequencer and Ion S5 XL Sequencer are DNA sequencing devices enable DNA analysis by measuring hydrogen ions released during nucleotide bindings via semi-conductor chips. This device is used to analyze DNA sequences at various specific regions among multiple human genes.

### Phadia 250

Fully automated, Phadia 250 is ideal for the medium-sized laboratories delivering 400 - 2,000 results per week.

- An allergen panel detecting sensitization to 650 allergens and 90 allergen components
- A broad autoimmunity menu covering clinically relevant autoimmunity markers for evaluation of the most common autoimmunity diseases, e.g., rheumatoid arthritis, celiac disease and connective tissue diseases
- All tests can be measured from one sample
- User-configurable reflex testing functionality
