

KYUNG IL MEDICAL INC

Product Highlights

Mediace®RPR / Mediace®TPLA® (Display)

SEKISUI MEDICAL's "Mediace®TPLA®" and "Mediace®RPR" are the world's first diagnostic reagents for syphilis on a fully automated system. These reagents are used to rapidly measure serum anti-TP antibodies and syphilitic antilipid antibodies using particles of the artificial carrier latex with a measurement principle based on latex turbidimetry.
